Henning Lensch

LL+P Hospital Architects Planners
Hamburg, Germany

Henning Lensch is a distinguished German architect based in Singapore, with over 30 years of global experience in the design and construction of healthcare infrastructure. He is the Managing Director of the architectural firm LL+P Hospital Architects Planners Pte Ltd, specializing in the comprehensive planning, preparation of tender documentation, and construction supervision of hospitals. His professional qualifications include the University of Fine Arts Hamburg (HFBK), studies in Denmark, and full licensing from the Bavarian Chamber of Architects.

In his extensive practice, Lensch has led multidisciplinary projects for general, psychiatric, and university hospitals, as well as specialized centers in Europe, the Middle East, Asia, Africa, and North and South America. He works actively with both private and institutional clients, as well as with leading international financial institutions, including the World Bank, the Asian Development Bank, the European Investment Bank, and the German development bank KfW. His portfolio includes recent and ongoing projects in countries ranging from Germany and Croatia to Singapore, Cambodia, the UAE, and Tanzania.

In addition to his design work, Lensch is deeply committed to standardization and policies in the sector. Since 2009, he has represented German architects in the Public Health Working Group of the International Union of Architects (UIA), and from 2007 to 2010, he chaired the Hospital Planning Group of the German Association of Consulting Engineers (VBI). He also collaborates with the World Health Organization (WHO) to develop standards for healthcare facilities.
